

UNPARALLELED EXCELLENCE IN POOL FINISHES

This pool color: Blue Zircon

Pool water color changes throughout the day due to variables such as the angle of the sun, cloud cover, water clarity, pool depth and surrounding reflections of hardscape and landscape. No two pools will reflect the same. Water color reflection is commodity that cannot be guaranteed.

SANDSTONE JEWELS for POOLS SERIES

This series provides all the wonderful qualities of our Sandstone Series interior pool finish with the addition of 20% added Jewels for Pools Glass Blend and abalone shell. These vibrant iridescent, multihued, gem-like glass beads will take your Sandstone finish from ordinary to extraordinary.
